

AI Voice Agent Performance Report

Reporting period: 4 June – 27 July 2026 · Projects: Singapore Miracle · Singapore One Street · The Grand Virasat

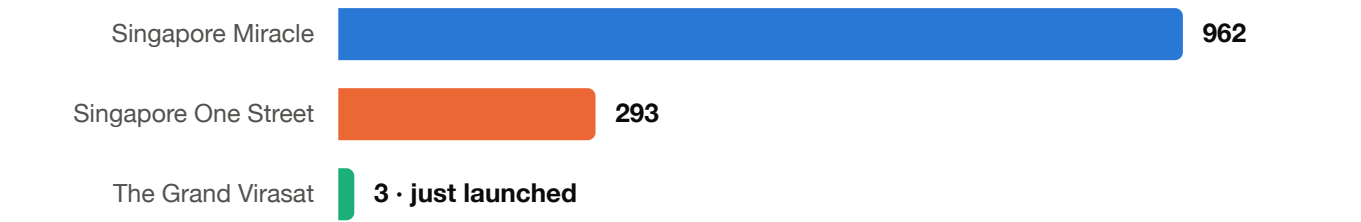

Over the last eight weeks the AI voice agent called **717 leads** across the three projects — every one of them dialled, qualified and followed up automatically, with zero manual effort from the sales team. **89% of leads were reached** at least once, the agent held **209 genuine conversations of a minute or longer** in Hindi and English, and converted the strongest ones into **17 confirmed site visits** — each booked directly into the calendar, confirmed on WhatsApp to both the customer and the sales team, and automatically reminded before the visit.

Lead-to-visit funnel unique leads, all projects

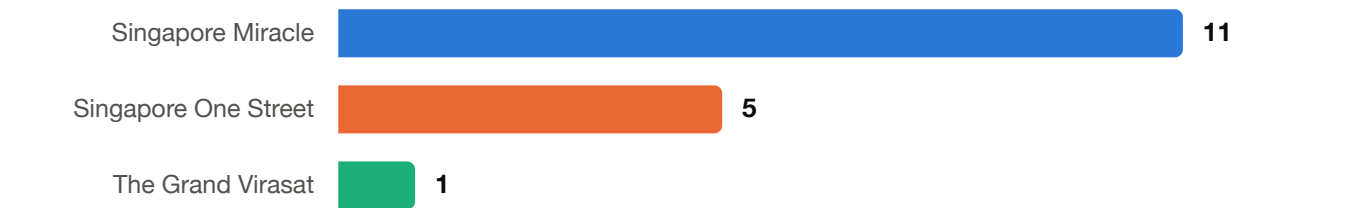

The system is accelerating. 11 of the 17 site visits were booked in the week of 20 July alone — as call volume ramps up and the agent's conversation flow gets sharper, bookings are compounding week on week.

Calls by project

A further 52 dial attempts could not be attributed to a project (carrier failures before the conversation started).

Site visits booked by project

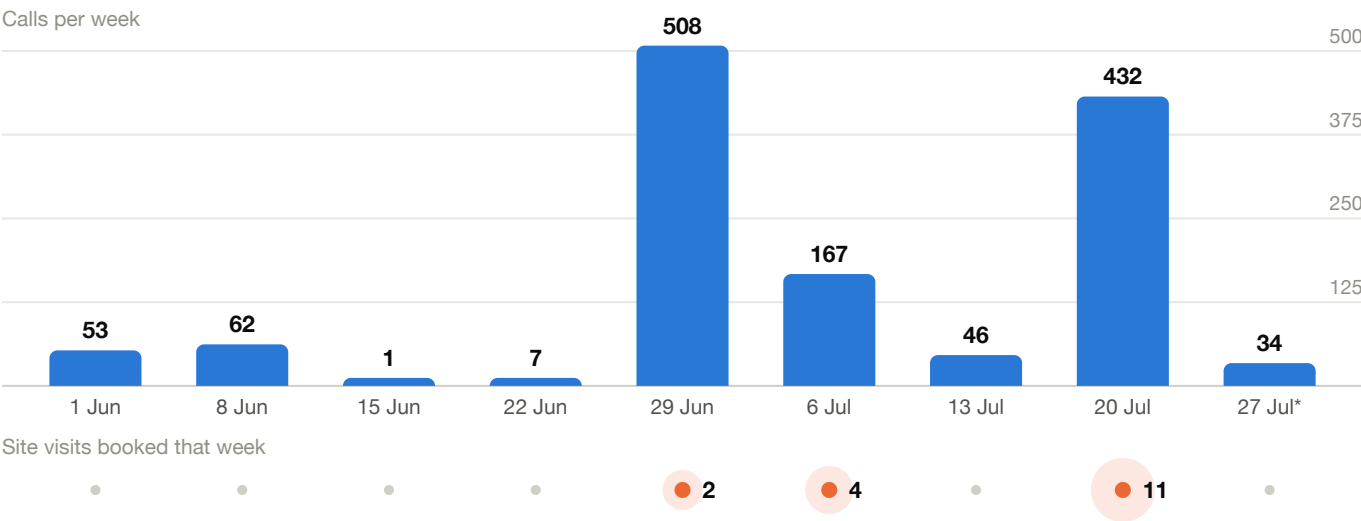

Project scorecard

PROJECT	CALLS	ANSWERED	1 MIN+ CONVOS	TALK (MIN)	UNIQUE LEADS	SITE VISITS
Singapore Miracle	962	550	144	404	460	11
Singapore One Street	293	293	63	172	252	5
The Grand Virasat	3	3	2	4	3	1

The Grand Virasat calling began in late July — early days, and it already has its first confirmed site visit from just 3 calls.

Weekly momentum calls placed per week · site visits booked

* Week of 27 July covers Monday only (report cut-off).

All 17 confirmed site visits
