

CONFIDENTIAL PROPOSAL

An **AI sales engine** for your next 100,000 leads.

Strike every hot lead within 30 seconds — across voice, WhatsApp, and your ad pipeline. Built for Sarthak Singapore's growing residential and commercial portfolio.

THE SINGLE BIGGEST LEAK IN INDIAN REAL ESTATE SALES

78% of Indian property sales go to whoever *responds first*.

The median Indian developer takes **4.2 hours** to reply to a WhatsApp inquiry — by then your buyer has already heard from three competitors. After just 10 minutes of waiting, lead interest drops more than 70%. The window between "interested" and "gone cold" is shorter than your sales team's lunch break.

FIRST RESPONDER WINS

78%

of Indian real-estate sales go to whoever responds to the buyer first — regardless of brand or project.

INDIAN DEVELOPER MEDIAN

4.2 hrs

to reply to an inbound WhatsApp lead.
The buyer expects a reply in under 5 minutes.

SOURCES

78% first-responder rule — Hyperleap AI, "WhatsApp for Real Estate Developers in India" (2025) · Kraya AI lead-response research. 4.2-hour median WhatsApp response & 70%+ interest drop after 10 min — Hyperleap AI India real-estate WhatsApp benchmark, 2025.

WHERE HOT LEADS SLIP THROUGH — BASED ON A REVIEW OF
SARTHAKSINGAPORE.COM

Three places **money** is **leaking** from your funnel right now.

01

No phone number. No chatbot. Just a contact form.

A buyer landing on sarthaksingapore.com has one option: fill the form and wait. There's no click-to-call, no chat widget, no instant answer at 11pm — every other major Indian developer has all three.

LIKELY LOSS
~70% of visitors

02

No WhatsApp — yet 60–70% of Indian property inquiries start there.

India has 535M+ WhatsApp users; for property buyers it has overtaken phone calls and web forms as the first point of contact. A buyer asking "3BHK plan?" at 10pm has nowhere to reach you.

CHANNEL GAP
100%

03

English-only site, but your buyers speak Hindi — and live in Dubai.

NRIs are now 18–20% of all Indian property purchases (up from 7–10% a decade ago); GCC buyers from Dubai, Saudi, Oman, Qatar lead the pack. A 3am Dubai inquiry needs an instant reply, in English or Hindi.

AUDIENCE MISSED
NRI + Hindi

SOURCES

Site review of sarthaksingapore.com (April 2026): contact form, social links, no live chat or WhatsApp button observed. 60–70% WhatsApp inquiry share — top Indian PropTech platforms · Hyperleap AI 2025. NRI 18–20% share & GCC dominance — Puravankara / JLL India NRI report 2025.

HOW WE CLOSE THE GAP

An AI sales engine that **strikes while the iron is hot.**

Every lead — from your website, Meta ads, Google ads, 99acres, or a cold-walked enquiry — gets a 30-second response in their language. Qualified, scored, and routed to your sales team only when ready.

FIVE SOLUTIONS, ONE STACK

SOLUTION ONE

01 An always-on AI voice agent for your hottest leads.

The moment a Meta lead form is submitted — or a website inquiry comes in — our voice agent calls the buyer in their language, runs through a qualification script tuned to your projects, and books the site visit.

- 
30-second response time
 Beats every competitor to the call. Lead is still warm.
- 
Hindi · English · Marathi · Gujarati
 Same agent, code-switches mid-call to match the buyer.
- 
100+ simultaneous calls
 Diwali launch spike? It scales without hiring or training.
- 
Hot leads escalate to human in real-time
 If a buyer is ready to book, the agent warm-transfers to your sales team.

EXPECTED
IMPACT

2–3×

More qualified site visits vs. manual callback — Indian developers using automated WhatsApp + voice scheduling report 2–3× lift, primarily from instant after-hours response.

SOURCES

2–3× site-visit conversion lift — Hyperleap AI 2025 benchmark of Indian developers using automated scheduling. Multi-language support (Hindi · English · Marathi · Gujarati) reflects standard practice for major MP / central India developers.

SOLUTION TWO

02 WhatsApp AI that replies in your buyer's language at 11pm.

60–70% of Indian property inquiries now start on WhatsApp — and 35% arrive after office hours. We deploy an AI agent on your verified WhatsApp Business number that answers buyers instantly, shares brochures and floor plans, and books site visits straight into your CRM.

✓ Sends brochures and floor plans on demand

Buyer asks for "Singapore Pink City 3BHK plan" — gets the PDF in 5 seconds.

🕒 24/7 — handles NRI timezones natively

Dubai 3am inquiry? Answered before your team is awake.

🔄 Re-engages cold leads automatically

Friendly nudges 3, 7, 14 days later — keeps the pipeline warm.

📌 Smart escalation

Detects high-intent buyers and pings your sales lead instantly.

RESPONSE
TIME

< 5
sec

From buyer's first message to AI reply — vs. the 4.2-hour median WhatsApp response time in Indian real estate today.

SOURCES

60–70% WhatsApp inquiry share & 4.2-hour median response — Hyperleap AI India real-estate benchmark, 2025. 35% after-hours inquiry rate — Hyperleap AI lead-source mix data. 98% WhatsApp message open rate — Infobip WhatsApp Statistics 2026.

SOLUTION THREE

03 An AI concierge on sarthaksingapore.com — 24/7.

Every major Indian developer — DLF, Lodha, Godrej, Sobha, Prestige — has a website chatbot. Yours doesn't, and the contact form alone loses 70%+ of visitors. Trained on your full project knowledge base, the assistant answers FAQs instantly and bridges every conversation to WhatsApp, where the AI continues seamlessly.

-  **Trained on your knowledge base**
Every project, plan, possession date, location, amenity — answered in seconds.
-  **One-click WhatsApp bridge**
Captures the visitor's phone number and continues the conversation in WhatsApp instantly.
-  **24/7 availability**
Answers when your team is offline. NRI inquiries from Dubai at 3am don't get lost.
-  **90% FAQ deflection**
Your team only sees the buyers who actually need a human.

**LEAD CAPTURE****3—
5×**

More leads captured per 100 website visitors vs. a contact-form-only site — by giving every visitor an instant way to start a conversation.

SOURCES

Indian developer chatbot benchmark — 70–90% FAQ deflection rate (Hyperleap AI 2025 · CampaignHQ India real-estate automation report). Form abandonment: 60–80% in real estate vs. 5–10% with conversational widget — HomeLead India / RealGeeks 2025. Major-developer chatbot adoption (DLF, Lodha, Godrej, Sobha, Prestige) verified via public website review, April 2026.

SOLUTION FOUR

04 Plug AI directly into Meta and Google ad leads.

Akshaya Tiritiya and Diwali campaigns generate huge lead volume — and every one of those leads deserves a 30-second response, not a Monday morning callback. We connect Meta Lead Ads, Google Lead Form Extensions, and 99acres / MagicBricks straight into the AI engine.

250%

CONVERSION LIFT (CASE STUDY)

A leading Indian real estate developer 2.5x'd its lead conversion rate by automating ad-lead handling and instant follow-up.

0 leak

CAMPAIGN-LEAD COVERAGE

Every Meta and Google form fill gets a 30-sec response — including ones that arrive at 2am during festive launch nights.

SOURCES

250% conversion lift — LeadSquared case study, "Leading Real Estate Enterprise Doubles Conversion Rate" (India developer, 2024). Indian real-estate festive launches (Akshaya Tiritiya, Diwali, Gudi Padwa) per ANAROCK / JLL India seasonal launch reports.

SOLUTION FIVE

05 One dashboard. Every lead, every project, every channel.

Find out which projects are pulling demand, which channels are underperforming, and which leads need a human touch — in real time. Built for Sarthak's sales head, with views drillable down to single conversations.

◆

Drill into any conversation

Listen to the AI's call, read the WhatsApp thread, see the lead score logic.

📌

Performance signals to your media team

"Pause Modern City Google ads — qualified rate dropped 14% this week."

LIVE IN 30 DAYS, ROI IN 60

A low-risk pilot on one project — then scale across the portfolio.

DAYS 1–14	DAYS 15–30	DAYS 31–60	DAYS 61–90
Pilot setup	Go live	Prove ROI	Scale
● Pick one project (e.g. Grand Virasat) ● Train AI on brochure + FAQs ● Connect Meta + WhatsApp + CRM ● Define qualification script	● Voice + WhatsApp agent live ● Auto-call all new ad leads ● Daily transcript review ● Tune scripts with sales team	● Measure response time, qualified rate, site visits ● A/B test against manual handling ● Sales head dashboard rollout ● Joint ROI readout	● Roll out to all 9 active projects ● Add Hindi · Marathi · Gujarati ● NRI-specific workflow live ● Festival launch ready

ILLUSTRATIVE ROI ON 1,000 MONTHLY LEADS (ONE PROJECT)

INDIA AVERAGE	TOP INDIAN DEVELOPERS	ADDITIONAL VISITS / MO	EXTRA UNITS / YEAR
1–3%	5–9%	+40–60	~20–35
lead-to-site-visit conversion	with fast follow-up & structured nurture	qualified, on-calendar	at 4% visit-to-sale conversion

Illustrative — pilot will measure actuals against your Sarthak baseline. Indian developer benchmark: average 1–3% lead-to-visit conversion; top performers with fast response hit 5–9%. Source: HomeLead India / RealGeeks 2025 benchmarks.

LET'S START A 30-DAY PILOT

Stop letting **hot leads** go cold while your sales team sleeps.

We'll set up a 30-day pilot on one Sarthak project. Within four weeks you'll see real data on response time, qualified leads, and site visits booked — and a clear path to scale across the portfolio.
